A MESSAGE FROM ANALOG DEVICES

Dear Valued Customer,

Happy New Year!

Thank you for the trust and confidence you have placed in Analog Devices. Nothing is more important to us than helping our customers succeed, and we deeply appreciate your continuous collaboration in strengthening our partnership.

I want to take this opportunity to update you on ADI's improved lead times for our products in 2023. As of today, one-half of our portfolio has fewer than 13 weeks of lead time. This improvement will continue steadily over the coming months, and we expect lead times for 95% of our portfolio (75K+ unique parts) to be at 13 weeks or less by October of this year.

Given ADI's lead-time improvement, now is a good time for both of us to look at your orders placed with ADI and assess your real-time needs in this improving supply-chain environment. Your ADI account manager will reach out to you soon to understand your requirements. The more we know, the better we can serve you, as we'll be able to focus on building the products you need in a timely fashion.

Thank you in advance for participating in this effort, and I look forward to partnering with you again in this new year.

Sincerely,

Anelise Sacks

Chief Customer Officer
